Subject: RE: Meeting Request- Snowy River CO2 Sequestration Project-

Eric,

I'm the Class VI team lead for Region 8 UIC program. I'd like to get your requested meeting on our calendars. Currently our calendar is quite open for April 7th 9:30-1pm and 3-4 pm.

Please send the invite to myself and Douglas and I'll forward it to the rest of our Class VI team.

Thanks for reaching out and looking forward to working with your group on this project, Wendy

Subject: Meeting Request- Snowy River CO2 Sequestration Project-

Mr. Minter,

The Bureau of Land Management, Miles City Field Office would like to request a meeting with you and your staff to discuss the BLM Right of Way (ROW) application for the Snowy River CO2 Sequestration Project (Project) submitted to our office in November 2022 by Denbury Carbon Solutions, LLC.

The current project area includes 109,619 acres, of which 100,191 acres are BLM managed lands in Carter County, Montana. The project involves the use and development of existing roads, new access roads, well pads for EPA class VI wells, powerline, bulk line, flowlines temporary use areas, and a pump station with an area office.

We are aware of Denbury's scheduled meeting for March 24th with your office. We would like to have a meeting with you in April, possible the 6th or 7th to discuss BLM's and EPA's review process and agency coordination efforts on the project. If you could please let me know if either of these days work, or propose a date and time that work best for you and your team and we can send an invite to the group.

Feel free to call or email me anytime to discuss this project further.

Thank you for your time. I look forward to hearing from you.

Eric D. Lepisto
Field Manager
Miles City Field Office
